The children learnt about number 6,7 and 8, they learned about rectangular shape, what it means part and hole using play dough to make a pizza and to cut to observe the part and hole and at the end the students played different games with the teacher, in order to practice and to know better the numbers (dots game, matching games).

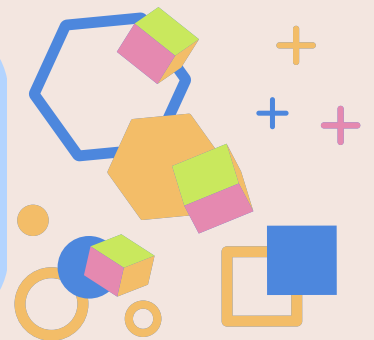

Practicing additions by using legos and a hand model.

The children started to match different objects according to the numbers and played different games using shapes that we have learned: triangle, circle, square and rectangle.

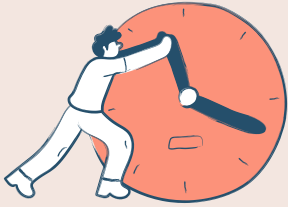

Counting in 2s and 5s

The children had to sort 2D and 3D shapes in less than 1 minute. They did a great job!

Telling the time

We learnt in a fun way the value of money, playing "The store"- we bought and sold different items, paid and gave change. At the same time, we practiced in a practical way the additions and subtractions that is helpful in daily life.

We learnt about the concepts light and shadows

Year 1 students observed the effect of the light on plants for weeks. They presented their project at Science Fair.

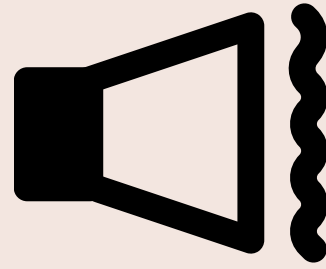

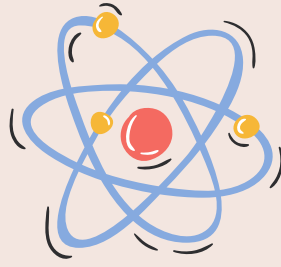

Making the Globe from paper

Light experiment and talking about the sources of light. We learnt about the importance of the Sun in the lives of living things (as a source of heat, light and energy)

We visited Science Fair held in our school.

During our Chapters: Fruits and Vegetables! Pets! and The Playground! The children learnt new words related to their chapters: they named fruits and vegetables, they made fruits skiwear's and they end up eating some delicious fruits. The students learnt and named the tools that can found at the playground or at the park, they named pets together and they visited Antipa Museum, a place where they had the chance to see all kind of birds and animals.

During our Book Week, we had a guest, Osman's mom, who came and read some story for our little ones, "Monkey Tale", "Three little pigs", then the students interact and discussed based on what they saw and listened.

INTERNATIONAL MAARIF SCHOOL

For the last day of Book week we made books full of interesting stories.

We played various games to improve your vocabulary.

In order to improve our motor skills, we cut according to the dotted lines of the drawing.

INTERNATIONAL MAARIF SCHOOL

Playing a fun game: when the music stopped the kids holding a noun card had to find a matching adjective card hold by another child. At the end, we found some funny matches like "happy dress"

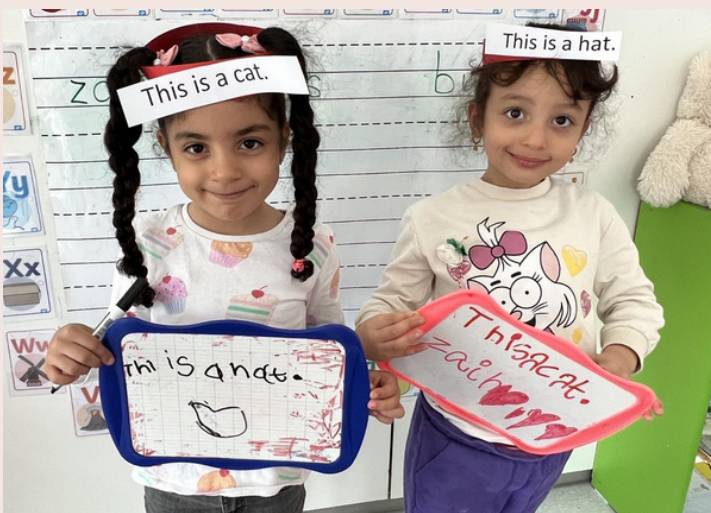

Our little farmers designed their own farms

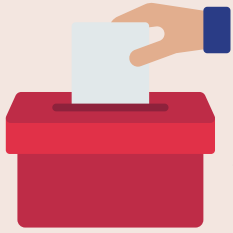

The children listened to the story "Enourmous Crocodile" by Roald Dahl. After that they had fun designing a dinner for the Crocodile, and made crocodile masks. The children make the characters cutting and sticking, to make the crocodile.

Basic literacy skills are very important in education and general life setting. Literacy skills include all the basic skills that are required for the process of reading, writing, and interpreting everything that goes around us.

“During the book week we voted for our rest time story.”

The big students reading to out little ones every week as a project.

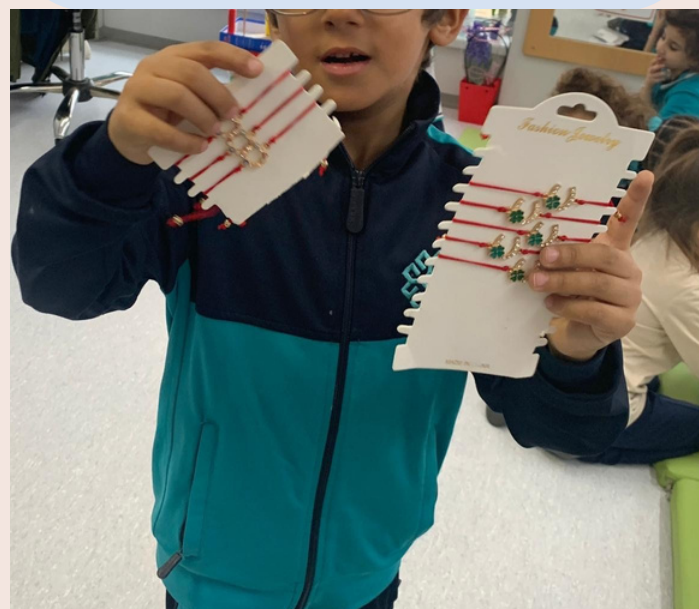

Book Week!

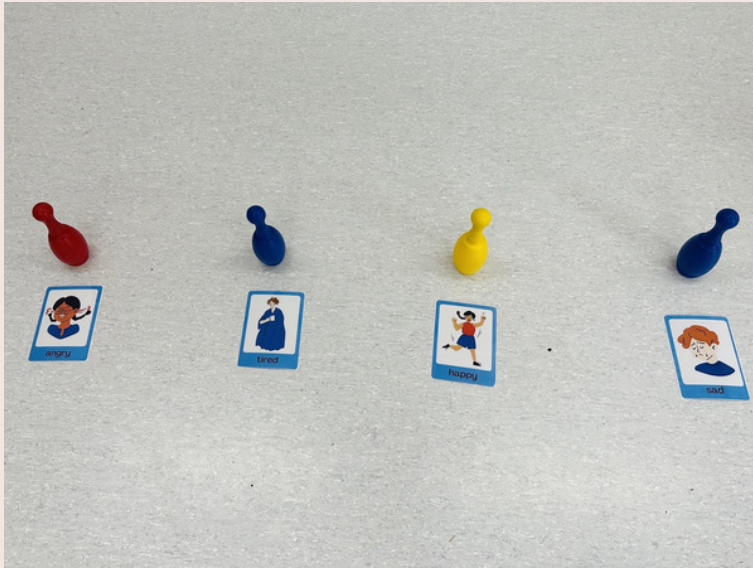

We learn Turkish through various games and activities.

We talked about 1st of March the traditional romanian “Mărțișor” and 8th of March, Romanian Women’s Day. During our activities time, the students had the chance to decorate some Romanian mărțișoare using lentils, pumpkin seeds, and sunflower seeds and for 8th of March the students create a post card for their mothers, using coffee grains.

it's okay to feel

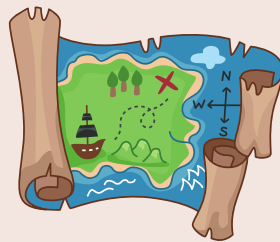

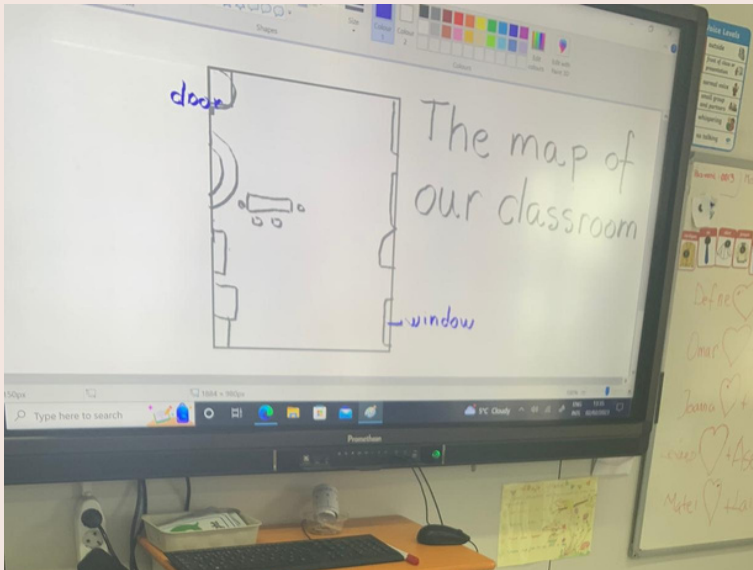

your feelings

We learnt how to express our feelings in a positive way.

We learnt about every job has a different role in social life by a puppet show.

The children worked in teams to make the 3D plan of the classroom using the woden toys available. And they draw the map of our classroom

This month was special for all of us: we found out that some of us are celebrating Ramadan and some of us are celebrating Easter. For a better understanding, we started by listening stories and after we made Ramadan decorations. We will also do Easter decorations on April.

In our P.E. and Dance classes, play-based educational activities are planned to support the physical development of children. Children demonstrate basic body movements. They walk, run, throw, catch, jump, turn, hop, push, pull and carry. Our students are happy to be active during the P.E. and Dance classes.

We visited the Antipa National Museum with the Nursery, Reception and Year 1 classes. The children were impressed by the museum and they had the chance to discover the origins of the universe whilst observing the unknown natural richness of the world around us.

We had fun with our parents on Woman's Day by various activities.

Some cute photos from our classes
